

```
1  #include <iostream>
2  #include <algorithm>
3  using namespace std;
4
5  int main() {
6      long long unsigned a, b;
7      while (cin >> a >> b) {
8          cout << max(a, b) - min(a, b) << "\n";
9      }
10     return 0;
11 }
```
